## PROFESSIONAL SERVICE

A well trained and highly professional service team for their assistance

## Modern Engineering

International Styling and Modern Engineering

## 100% inspection

Services abiding various International Standards 100% inspection & testing of all components

# Hydraulic Lifts

Prominent & Leading Manufacturer from Hyderabad, we offer hydraulic residential lift, hydraulic elevator, mini hydraulic lift and hydraulic cylinders for lifting purpose.

One of the most important factors for passenger elevators you should consider is the carrying capacity of elevator, elevator running speed and manufacturing the best proper elevator, as hydraulic or mechanical elevator, due to traffic calculations.

For passenger lifts; comfort, interior decoration and hygiene do matter as to intended use. Elevator cabins may be adorned with various materials such as laminate, wood, stainless and laminated glass according to the preferences of the users.

Hydraulic lifts are versatile and efficient mechanical devices used for vertical transportation of people and goods. They operate based on Pascal's Principle, utilizing hydraulic fluid to transmit force and lift heavy loads with minimal effort. These lifts consist of a hydraulic cylinder, pump, and fluid, which work together to provide smooth and reliable movement.

# Hydraulic Dumb Waiters

---

Our Hydraulic Dumb Waiters are applicable where there is a need to shift goods between different floors. We offer our clients a very efficient variety of Hydraulic Dumb Waiters that provides reliable and economical multi-level lifting solutions.

Our hydraulic Dumb Waiters have rugged construction and advanced safety technology with proven reliability. Hydraulic Dumb Waiters are especially suited for hauling light load of materials.

We manufacture high quality goods lifts and dumb waiters which follow strict inspection and quality control measures. These lifts are excellent in performance and safe.

Hydraulic dumb waiters are compact and efficient lifting systems designed for transporting small items such as food, dishes, documents, or medical supplies between floors. Powered by hydraulic mechanisms, they offer smooth and quiet operation, making them ideal for use in restaurants, hospitals, libraries, and homes.

Hydraulic dumb waiters are compact and efficient lifting systems designed for transporting small items such as food, dishes, documents, or medical supplies between floors. # OUR PRODUCTS

Our ever-growing product range provides solutions for building projects of all shapes and sizes. We thrive on giving our customers exactly what they want and our comprehensive range of products is designed to do just this. Whatever the requirement, there is sure to be something to fit the bill even if it's something outside of our 'standard' product range.

- Hydraulic Passenger Lifts
- Car Elevators
- Capsule Elevators
- Hospital Lifts
- Passenger Elevators
- Traction Lifts
- Home Lifts
- Structural Fabrication
- Hydraulic Good Lifts
- Machine Roomless Lifts
- Dumb Waiters

Our product range includes advanced elevator and lift systems designed for diverse needs. We offer Hydraulic Passenger Lifts, Passenger Elevators, and Traction Lifts for smooth and efficient vertical transportation, along with Capsule Elevators for modern aesthetics and Home Lifts for residential convenience. Our Car Elevators ensure seamless vehicle movement, while Hospital Lifts are equipped to handle stretchers and medical equipment. For heavy-duty tasks, we provide Hydraulic Goods Lifts, and for compact transport, Dumb Waiters are ideal. Additionally, we specialize in Machine Roomless Lifts and Structural Fabrication, delivering reliable, space-saving, and innovative solutions for all your lifting needs.

# QUALITY ACCESSORIES

# H3 Small Shaft Sightseeing Home Elevator Package Solution

## Flexible Installation

No need for pit, Unique dual-track design with built-in shaft

## Small and Exquisite

Small shaft, Exquisite decoration, rich decoration configuration, humanized design

## Security

Automatic fault rescue, backup power supply to ensure automatic leveling of the elevator, open the door to allow passengers to exit safely

## Intelligent interconnection

5G Interconnection, intelligent voice recognition operation, can be controlled remotely while traveling
